

COVID-19 Update: One New Case Today

BY JOY SPRINGER | APR 30, 2020 | CORONA VIRUS, TOP STORIES

A 32-year-old Barbadian male is the latest COVID-19-positive patient.

He was among 155 people tested yesterday. Of the 122 results returned so far by the Best-dos Santos Public Health Laboratory, he is the only positive.

His case is under investigation by the Ministry of Health and Wellness because he has no travel history, and no known contact has been identified so far.

He brings the number of persons in isolation to 35 and the number of confirmed cases in Barbados to 81, 43 females and 38 males.

No-one was released from isolation today, so the number of recovered persons remains at 39. The public health laboratory has now conducted 2160 tests since February 11.
